SUPPLEMENT TO
REPORT NO.

25X1X

THIS IS UNEVALUATED INFORMATION

1. Employment at the Povazske Strojarnie, Povazska Bystrica, amounts to the following:

As of 1 June 1949:	Workers	6576
	Clocks	851
	Apprentices	335

2. Production during May 1949 consisted of:

Motorcycles-Manet 90	894	each
Refrigerators-Manet 150	973	each
Milk cans	14,475	each
Small-caliber ammunition	10,000,000	rounds
Artillery brass cartridge cases..	15,000	each
Rolled and pressed half-finished metalware:			
Heavy metals	2,444	tons
Light metals	86	tons
Power:			
Electricity	1,000,000	KWH
Steam	15,497	tons
Gas	1,220,000	cu. m.
Water	246,000	cu. m.

Production is running smoothly in spite of a shortage of cathode-copper. This shortage has been overcome by using wire-bars, of which a great quantity has been imported lately. A total of 250 tons of rolled wire-bars, imported from San Antonio, Chile, arrived on the SS Orinoko via Rotterdam. This purchase was made through the Swiss firm "S.A. pour le Commerce Extérieur" (sic) Zurich. Further copper imports are received from Finland via Poland, from Mexico (brands "CDM" and "DRM") via Aschaffenburg (sic) Germany, from Russia via Cierna nad Tisou (Cierna pri Cope), and from Yugoslavia along the Danube. Fifty tons of aluminum cakes arrived from Hungary, and lead pipes containing one percent antimony are to be acquired from Marshall Plan supplies through an unknown source.
